Lynn & Ken,

Please renew my subscription to the Osprey 2 Newsletter. I'm almost late I see.

The Osprey 2 plans use lots of 1/4" x 1/4" corner blocks for glueing thruout the aircraft. Your local lumber yard has what they call "quarter, quarter round" (lumber is fir) all made up, it saves a little time and effort and its cheap enough.

My Osprey is almost on it's landing gear. It's a class project here at the university. (University of Wisconsin-Stout).
